## iPod Integration Kit

Taking your personal music collection with you wherever you go has never been easier. Mercedes-Benz now offers seamless integration of your iPod® into the audio system of your car

With an interface that is compatible with any dock-connector equipped iPod device, your iPod is charging even while it is playing. Steering wheel controls and a visual display of the artist and song title make your iPod a perfect fit with your Mercedes-Benz — and help you keep your attention focused on the road.

These are genuine Mercedes parts that will not affect your warranty.
